Director's Report:

Sarah and Denise benefited from High Tech camp, which was both serious and fun. Denise and Sarah built a lot of connections, especially with NAAG. The coaches in the region, particularly Oregon, were very supportive of each other. She also had the chance

to see amazing coaches in action. She would love to do this camp again next year, and maybe also Super Camp for the levels 7-8.

She is also working with Jenni and had a long conference about how to help the compulsory girls move up successfully and stay with the sport long term.

Other:

One of the girls has mono, so please be careful with your daughter, especially with the drinking fountain.

Next meeting will be in January.
